When the ten minutes were over, he asked Mary to ft, the egg was hard and the tea leaves had turned water into ation, but they behaved differently. People are just the same.

Reading

D Read the texts and match the headings (1-6) to the texts (A-E). There is one extra heading This text deals with ...

- 1) popular exercise;
- 2) the weather;
- 3) traditional food;
- 4) health advice;
- 5) an animal;
- **6)** a place to visit.
- A) The beluga whale lives in the Arctic. They can dive more than 3,100 feet deep looking for food. They eat fish, mainly cod. Beluga whales live in groups. Usually there are ten individuals, and they live and feed together. In Russia, the whales generally live in the waters that border the north of the country. The whales migrate according to the seasons.
- B) You should go to the zoo if you want to see animals with your own eyes. There you can learn about what they eat, their habits, environment, and all sorts of other interesting facts about animals. Another name for a zoo is a zoological garden. Today many zoos do wonderful work in animal research and take great care of their animals. Many animals feel at home there.
- C) September and October are wonderful months in Canada, as most days are cool, crisp and pleasant. The Canadian winters are cold and long, and in the northern parts of the country they can be severe. In the central part the daily average temperatures are about -20 °Celsius. In these regions, snow can cover the ground almost six months of the year.
- D) Japanese cuisine is very popular around the world and for good reason. It has a good balance of ingredients. Centuries before Japanese people were eating sushi, they first enjoyed raw fish without the rice. The name «sashimi» means any thinly sliced raw food, including raw beef and chicken. However fish and seafood are the most popular types of this dish.
- E) To eat well and best prepare for your training, it is always smart to eat a nice breakfast. If you don't eat at all before exercising, you could feel weak. If you are going to eat a big breakfast, eat it at least three hours before exercising. If you only have two hours before your game, eat a smaller portion. You also need to eat some food after you exercise to help your muscles recover.
